

THE BIG PICTURE

Seeking a unique window into the world of an artist who – alongside Gauguin, van Gogh, Cézanne and Munch – is regarded as a trailblazer of modernism? Don't miss the Segantini Experience. A tribute to Giovanni Segantini, whose late-19th-century paintings speak of human existence in harmony with nature, the evening begins at the artist's studio in Maloja, where you'll be greeted by the Segantini family and given a private tour of the current exhibition. You'll then be invited into the residence of the artist and his life partner Bice Bugatti, to enjoy Segantini wine in the Samurai living room, before adjourning to the Bugatti dining room for an exclusive candlelit dinner featuring standout local specialties.
