

LET IT SLIDE

The one thing about tobogganing nobody likes? The walking up the mountain. But that's not an issue on this sledging adventure: the legendary Rhaetian Railway will carry you (along with an experienced guide) up through helical tunnels and over viaducts offering breathtaking views of the Albula Valley to Preda. From there – at a dizzying 1,800m above sea level – the whole family will whizz down glittering slopes towards Bergün. Prefer a more daredevil route? Take the chairlift from Preda to Darlux, then descend to Bergün at full tilt. We'll race you!
