TOCCARION - CHILDREN'S MUSIC WORLD AT THE FESTSPIELHAUS

The incredible children's music world Toccarion of the Sigmund Kiener Foundation conveys the fun of music to children between the ages of five and twelve. On an area of around 600 square metres, a true musical world of experience opens up. High-tech games and classical musical instruments are on equal footing for children to try out. Children can discover the Toccarion during age-appropriate guided tours and workshops. The additional cooperation with the Festspielhaus artists makes this place even more surprising.

The Toccarion can only be visited as part of a guided tour, workshop or event. An independent visit, such as in a museum, is not possible. Group tours start at 10 am on weekdays, tours on Saturdays start at 2:30 pm. On Sundays, guided tours of the Toccarion begin at 11 am.

MINIATURE WORLD BADEN-BADEN WITH SIMA'S CAFÉ

Fancy a change of pace for the whole family? The Miniaturwelt with Sima's Café makes the heart of every child, but also of many adults, beat faster. Perfect for a family outing!
As soon as you enter the miniature world, you are surrounded by lovingly designed landscapes, trains and a variety of scenes that even the youngest visitor can operate.

DELUXE PICNIC IN THE BLACK FOREST

Experience magnificent views on your very own nostalgic drive with the original VW Samba “Oskar” of the Brenners Park-Hotel & Spa. An unforgettable experience awaits you on the most charming routes of the Black Forest. On your approximately four-hour journey, you can relax from start to finish as we provide you with an experienced chauffeur who will show you the most extraordinary places. Your picnic basket is filled to the brim: From fried king prawns and pastrami sandwiches to quiche Lorraine and a compartment for extra culinary requests.

Our concierge team will be happy to prepare the perfect day for you in the Black Forest.

MEHLISKOPF BOBSLEIGH RUN

Speed through flowering meadows in an imaginary ice canal, breathe the spicy Black Forest air and relax afterwards. This is what a perfect family holiday trip to the all-season bobsleigh run at Mehliskopf looks like.

Since July 2001, directly on the famous Black Forest High Road, and expanded in 2013, you can speed through 13 steep curves on steel rails at speeds of up to 40 km/h. It's a crazy feeling to plunge into the snow. It's a crazy feeling to race into the steep curves, to be swept around and to think for a frightening second that you're about to take flight into the open countryside. But don't worry, no one has ever been thrown off course. Of course, the bobsleds are connected to the rails in a way that prevents them from derailing and the pilots are strapped in.

CLIMBING GARDEN

On an area of approx. 3.5 hectares, visitors can climb from tree to tree in seven courses with varying degrees of difficulty at heights of 3 to 14 metres. In 2007, an adventure forest playground was built, with a water play landscape, tree house, „Tarzan“ bridge and children’s ropeway (flying fox), low-rope elements and climbing roots. An educational and information trail has been created at the bottom of the adventure climbing garden, drawing attention to other attractions in the region.

You will receive a detailed briefing, via ferrata set with harness and helmet. A steel guide rope accompanies you at all times. You climb, balance and glide through a world of ropes, beams, bridges, nets and cableways. Enjoy nature in the vertical! For young and young-at-heart, as a family, school or company outing, alone or with friends.

Climbing is also possible during rain showers. Please make sure you wear sturdy shoes, weatherproof clothing and possibly gloves.

HIGH UP – THE TREE-TOP WALK IN THE BLACK FOREST

The 1250 m long treetop path in Bad Wildbad offers a spectacular 360° view from an extraordinary perspective over the Black Forest - at any time of the year. It is not only the view that is a highlight, but the way there already promises adventure, for example through various stations where you can climb, balance or even walk safely over the abyss.

Right next to the treetop path is the Sommerberg Adventure Forest, with a separate entrance. There, young and old can let off steam.

If you can't get enough fresh air and forest atmosphere, you have the option of using the WILDLINE suspension rope bridge or one of the Sommerberg's circular hiking trails from there.

Spielplätze Baden-Baden

Dschungelspielplatz, Lichtentaler Allee 86A, 76530 Baden-Baden

Grüner Spielplatz mit Klettergerüst und tropischem Charme.
