In all our treatments, we use the Regina Isabella spa's extraordinary thermal **water**, considered **bioactive** because of the energy it contains and the aesthetic and medical **benefits** it offers. The combination of this water with our curative **mud** provides an elixir of pure wellness. Clay extracted from the natural quarries on Ischia is aged for six months in the thermal water, from which it absorbs the mineral and medicinal properties, until it becomes a **bioactive thermal mud**. It is a natural product with many aesthetic, physiotherapeutic and dermatological applications.

Decades of experience and meticulous medical-scientific research have led to the creation of a unique approach: The **Regina Isabella Method** that guarantees immediate and lasting results thanks to the application of **Three Steps (Detox, Anti-inflammatory and Regeneration)** that we include in every treatment and in our thermal programmes.

The **DETOX STEP** is the first step that aims to **flush pollutants and toxins from the body**, to ensure a specific action free from external interference. Our experience with excretory organs means we are able to facilitate the elimination of toxins by combining aesthetic treatments, spa treatments and nutritional support.

The **ANTI-INFLAMMATORY STEP** is a consequence of the natural immune stimulation that occurs when the water and bioactive thermal mud of the Regina Isabella Spa are applied using manual techniques. The immune system is activated through the skin, the body's true "radar" of our body that facilitates the release of anti-inflammatory molecules.

The **RI Method** allows us to act on these factors, **stimulating the immune system to repair damage, and to treat and preventing diseases and imperfections.**

The **REGENERATION STEP** consists of the **functional recovery and improvement of the general state of wellbeing.** After repairing the damage in the anti-inflammatory phase, the organism restores the cellular functions, previously compromised by inflammation.

MUD WRAP

Mud wraps, the most natural defence.
Counteracting the signs of aging.
Preventing and combatting diseases such as seborrheic, atopic and rosaceous dermatitis. **Preventing psoriasis.**
Bioactive thermal mud is a precious ally: along with the **thermal water filiform shower**, it has a **detoxifying, anti-inflammatory** and **regenerating** effect on the skin. It also stimulates the production of **collagen** and **cellular turnover**.
A truly rejuvenating effect.

SHORT PROGRAMMES

SHORT PROGRAMMES

D A R	METHOD RI	€ 220,00
	• Bio-exfoliating body treatment with thermal shower 40' or RI bioactive mud wraps 30' • Regina Isabella Personalized massage 60' • Aroma massage 50'

INHALATION THERAPIES

Breathe well with us.

They're called inhalation therapies. **For us it means, above all, breathing wellness.** Treating, but above all preventing, the classic seasonal ailments such as allergic rhinitis, asthma, COPD, but also the most common upper airway inflammations such as sinusitis, laryngitis and pharyngitis. Along with our doctor, we will prescribe the path that best suits your needs, along with suggestions for respiratory gymnastics.

You'll feel like you have been reborn.

NUTRITION

▣ **Functional nutrition** ▣ applied at **spas**, is essential to achieving and lasting results. Nutrition is part of the three steps of **The RI Method**. Weight loss is a natural consequence of the functional recovery of the entire system in terms of the treatment and prevention of diseases.

Flushing toxins from the body is the first step to make everything works better: impacting the liver, kidneys and intestines. This is basic to ensuring an effective and lasting result. Our specialist, Dr. **Valerio Galasso, Biologist Nutritionist and Scientific Director of Regina Isabella Thermal Spa**, and his team, personally monitor the spa's guests throughout every step.

CANCELLATIONS

Cancellation is required 24 hours before the scheduled treatment, otherwise the full amount of the booked treatments will be charged.

NOTE ON THE REQUIREMENTS OF THE SSN (ITALIAN HEALTH SYSTEM)

To benefit from the SSN subsidy, a doctor's prescription is required with a date prior to the start of the treatment.

To avoid tiresome bureaucratic complications because of incorrect terminology in the diagnosis, we recommend that the definitions below be used.

For the mud-balneotherapy cycle, use for example: "Osteoarthritis and other degenerative forms", or "Diffuse osteoarthritis", also "Extra-articular rheumatism". For the balneotherapy cycle, use for example: "Osteoarthritis and other degenerative forms", or "Extra-articular rheumatism"

SPA ETIQUETTE

The RECINA ISABELLA SPA is a place of relaxation; to respect the other guests it is forbidden to use mobile phones or other electronic devices and we request voices be kept low.

Smoking inside and outside the Spa is prohibited. It is forbidden to bring food and/or alcoholic beverages into the Spa. Before going to the spa, it is advisable to leave any jewellery and valuables in the bedroom safe. Please arrive at least minutes before scheduled treatments. In the case of delay, to respect the other guests who have booked a treatment, it will not be possible to complete the full treatment. We recommend that men shave before facial treatments. When using the pool, it is mandatory to take a shower and use a swim cap.

For your own safety, we recommend you wear suitable shoes and clothing for physical activity.

Children under the age of 18 must be accompanied by a parent or guardian. Suitable diapers are required for children under 2 years of age. Please report any health issues, so we can recommend the healthiest protocol.
